

A+ bikes for sale

Product-sheet A+ bikes

A+ bikes is a new type of bicycles that show a substantially high quality standard and enjoy special treatment in the preparation process. A+ bikes are among these bike categories:

- Mountainbikes
- Touringbikes
- Roadbikes (Racing)
- Kids bikes

A+ bikes of all categories fit the following specifications (minimum standard):

- Frame material: Aluminium, Carbon or high-quality steel
- Frame and painting are in good condition
- All parts are fully operating and controlled by our head of workshop
- All wearing parts are in new or good condition (tires, brake-pads, etc.)
- Especially the drive-train (chain, crankset and rear sprocket) is in good condition
- Sensitive bikes (mainly carbon frames and parts) will be packed specifically to avoid damage during transportation
- Special storage area to make sure that there is no damage during storage

Within the specific categories, specific criteria apply (ideal type: some variations are possible):

- **Mountainbikes**
 1. Only quality frames with a modern geometry (aluminum or carbon)
 2. Disc brakes (mechanic or hydraulic), v-brakes are an option but only if high quality (Shimano Deore or above)
 3. Minimum 3 x 9 speed, minimum quality: Shimano Deore
 4. Quality suspension fork (in case of full-suspension: a quality shock-system, good-quality coil shocks are a good choice!)
 5. 26`` wheel sets are common. 27,5`` and 29`` wheel sets are especially asked
 6. New (or good quality) MTB- tires

- **Touringbikes**

1. Only quality frames with a modern geometry (aluminum, carbon or steel)
2. Disc brakes (hydraulic or mechanic)), v-brakes are an option but only if high quality (Shimano Deore or above)
3. Minimum 3x 9 speed, minimum quality: Shimano Deore
4. Quality suspension fork
5. If existing, rack and mudguards are of good quality and in good condition
6. Quality light-system (mainly Hub Dynamo, if possible LED lights)
7. Possibility to equip the Touringbike-frame with MTB-tires (at own costs)

- **Roadbikes (Racing)**

1. Lightweight frame (good quality aluminum or carbon)
2. STI shifting system (in general not the first generation of Shimano STI's)
3. Minimum quality Shimano 105 or Campagnolo Veloce
4. Quality wheel set
5. System pedals
6. New (or good quality) roadbike tires

- **Kids- bikes**

1. Any kids- bikes fitting the criteria of another category

Ordering process

When ordering a container, a list with all available A+bikes will be provided including a picture and some main criteria. The partner can choose from this catalogue.
